

Good vacation

Last summer I had a great and memorable vacation in my life I spent with my family on the sand dunes of Dubai, the land of gold and petrol. It's amazing to share my vacation experience. We were so thrilled to see our passports stamped with Dubai tourist visa because we passed by Dubai many times but we didn't get a chance to step in Dubai, but this time we were visiting exclusively. Many thoughts and uncountable places in mind but we got only 3 days to go around we have to cover all the places as much as we can.

Finally, we landed in Dubai land, we took a taxi and headed to the Sheraton hotel and checked into our rooms. We hardly got an hour to get ready and start our first-day visit to Dubai. We were guided to Burj Kalifa tower, we spent nearly half of the day to see the world's tallest tower and from there we were taken in a speed boat to see the private islands and underwater villas and luxury villas, almost we were there until 7 pm and later we had cultural programs at the beach resort and rides followed by dinner. After a rough day on the dunes and shore, we returned to our hotel rooms and had a deep shower, and went to bed.

2nd day we were at the famous shopping mall, to my surprising we can get items from lowest to highest prices the entire day was at the shopping mall hardly we bought for 200 dollars but we made window shopping for more than 20,000 dollars. 3rd day the last day we are at the Palm township built in the middle of the sea it's one of the civil engineering excellence, in the evening we had a desert safari followed by Dubai traditional dances with dinner, it's amazing to have hot barbecues with gentle cold breeze touching us in the middle of the desert with music and so on.

Finally, it's time for us to say bye-bye to Dubai. I personally feel that Dubai is a land of luxuries and a place where the world meets. After landing in our motherland, we felt that visit to Dubai passed like a snapshot.
